# SAFETY TIPS for PEDESTRIANS

- Be predictable.** Follow the rules of the road and obey signs and signals.
- Walk on sidewalks** whenever available.
- Walk facing traffic** and as far from traffic as possible if no sidewalk.
- Keep alert at all times.** Don't be distracted by electronic devices.
- Cross streets at crosswalks** or intersections whenever possible.
- Look for cars in all directions** – including those turning left or right.
- If a crosswalk or intersection is not available**, locate a well-lit area where you have the best view of traffic. Wait for a gap in traffic that allows you enough time to cross safely, and continue to watch for traffic as you cross.
- Never assume a driver sees you.** Make eye contact with drivers as they approach you to make sure you are seen.
- Watch cars entering or exiting driveways, or backing up in parking lots.**
- Avoid alcohol and drugs when walking.** They impair your abilities and judgment, too.
- Be visible at all times.** Wear bright clothing during the day, and wear reflective materials or a light at night.
